---

I specialize in using React and Redux.js to develop advanced web interfaces, translating UI designs into pixel-perfect, accessible applications. Our team focuses on producing clean, optimized, and reusable code, efficiently resolving errors, and maintaining high-quality standards. This collaborative approach enhances user engagement and satisfaction for businesses.

## EXPERIENCE

**Position:** Senior Front End Developer  
**Company Name:** Investis Digital Pvt Ltd  
**From:** June-2022 **To:** April-2024

- Developed user interface components using react concepts like JSX, components, props, state, and lifecycle methods.
  - Collaborated with design and backend teams to translate wireframes and design mockups into responsive, interactive web applications.
  - Utilized react router for client-side routing to create a smooth user experience across different pages.
  - I customized the UI to meet the specific needs of our clients, incorporating resources and meeting agendas, and ensured seamless deployment of documents for merging.
  - I implemented deployment and enhancement features on virtual meeting platform.
  - Stayed updated with the latest react.Js trends, libraries, and best practices to continuously improve development processes and outcomes.
  - Worked with version control systems like git for collaborative development and code repository management.
- 

**Position:** Frontend Developer  
**Company Name:** Rangam Infotech Pvt Ltd  
**From:** January-2014 **To:** August-2015 - **From:** October-2015 **To:** June-2022

- Lead react projects, ensuring high-quality solutions and successful execution.
- Integrated restful APIs asynchronously using axios and fetch api for data retrieval and updates.
- Utilized modern javascript ES6 features to write clean and maintainable code.
- Optimized application performance by identifying and addressing bottlenecks with react devtools and chrome developer tools.
- We have integrated Progressive Web App in our Childhood Development tracking Tool in React project.
- Facilitated project estimation and timeline planning, while concurrently overseeing code reviews to uphold coding standards and foster team collaboration.
- Collaborated with cross-functional teams to meet project deadlines in fast-paced environments.
- Conducted user experience quality assurance testing to enhance product usability.
- Ensured cross-browser compatibility and responsiveness using css frameworks like bootstrap.

## EXPERIENCE

**Position:** UI Developer

**Company Name:** Alpha Dezine Services Pvt Ltd

**From:** April-2012 **To:** December-2013

- Led projects and analyzed data to identify areas for enhancement, managing teams of 5 to 6 members.
  - Translated design concepts into responsive web applications by collaborating with design and backend teams.
  - Improved customer satisfaction by promptly addressing and resolving issues.
  - Exceeded project goals by prioritizing tasks effectively and maintaining a strong work ethic.
  - Provided exceptional service by actively engaging with customers to understand their requirements and deliver tailored solutions.
- 

**Position:** Frontend Developer

**Company Name:** E-Intelligence Pvt. Ltd

**From:** February-2011 **To:** July-2011

- Engaged in website development projects and email template creation for client SEO promotions, collaborating closely with backend developers for seamless integration.
  - Met with clients to ascertain expectations regarding visual presentation, branding.
  - Provided comprehensive research and materials aligned with current web design standards to ensure optimal project outcomes.
- 

**Position:** Graphic Designer

**Company Name:** Office Beacon As Pvt. Ltd

**From:** May-2008 **To:** January-2010

- Designed creative digital displays used in online advertising for local businesses.
  - Worked with clients to gather and define requirements, establish scopes and manage project milestones.
  - Put together videos for social media, advertising and informational purposes.
  - Completed in-depth product design tests using updated software tools.
  - Used illustrator to create images and layouts for multiple projects.
  - Created digital image files for use in digital and traditional printing methods.
-
